Hunting line pellets

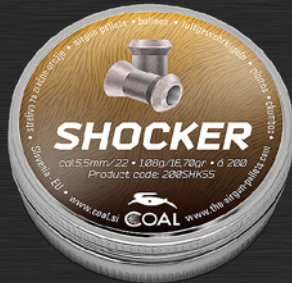

Stinger

These new heavier pellets with smooth body and metal alloy tip are designed for a wide variety of airguns from spring operated to pcp airguns. Due to the extraordinary penetrating effect of these pellets on the target, they achieve extraordinary success especially in hunting. These pellets are suitable also for long distances over 50m. High accuracy guaranteed. They are available in three calibers, 4.5/.177, 5.5/.22 and 6.35/.25. Carefully packed in durable screw top tins and cardboard boxes to prevent damage.
